

R packages that are used

NOTE: Not sure if we need all of them... But for now, just keep the.m

```
library("ape")
library("deSolve")
library("strap")
library("stringr")
library("ips")
require("treeio")
library("ggplot2")
require("ggtree")
library("reshape2")
library("ggstance")
library("diversitree")
library("ggimage")
library("ggpubr")
library("dplyr")
library("patchwork")
library("tidyverse")
library("janitor")
library("stringr")
library("skimr")
library("phytools")
library(dplyr)
library(rstatix)
library(jsonlite)
library(tidyr)
library(ggalluvial)
library("deSolve")
library(stats4)
library(caret)
library(irr)
library(rootSolve)
```
